

WOODFIELD HOMEOWNERS ASSOCIATION

ARCHITECTURAL GUIDELINES

Path Lights

Style

- Tiered or Lantern Styles
- Post or Shepherd's Hook
- Solar or Hard-wired

Finish

- Black Only

Other Requirements

- Placed in planter areas only (NOT IN GRASS)
- All wires must be buried at least 6" below dirt surface
- Must be maintained free of damage and in working order at all times
- Homeowners are responsible for all maintenance. Any damage done by gardeners or other are homeowner responsibility (see special note below).

Special Note: Homeowner assumes any damage and any liability resulting directly or indirectly by the Woodfield Homeowner's Association including gardening and maintenance to the common areas. The homeowner understands that the use of path lights in the planting area does not constitute permanent permission of use. The Association can at its discretion terminate such usage.
